II 2G Ex de IIC T3/T4/T6/120°C Gb
II 2D Ex tb IIIC T80/T120/T130/T195°C Db

- **For mounting on sight glass fittings:**
This sight glass luminaire is designed for universal applications in potentially explosive environments. It is ideal for use in combined sight and light arrangements (single-flange version) or with two separate ports (2-flange version).
- **Compact design; powerful light output:**
Glare-free illumination; suitable for circular sight glass fittings to DIN 28120/DIN 28121 or similar, screw-type sight glass fittings in compliance with DIN 11851, and for visual flow indicators.
- **Generous light aperture and convenient lamp replacement thanks to optimally designed screwed lens closure.**
- **Application:** For illuminating the interior of tanks, hoppers, silos, agitators and other, usually closed, vessels and reactors as well as visual flow indicators in **potentially explosive environments**. Suitable for use in food processing industries.
- **Protection class:** dust- and splash-proof, IP 65 and IP 67 acc. to EN 60 529 / DIN VDE 0470, Part 1
- **Operating conditions:**
Independent of the internal pressure/vacuum in the vessel. On no account should a sight glass luminaire be used on its own to close a vessel port or as a replacement for the cover flange or instead of the complete sight glass flange assembly.
- **Lumistar luminaires USL 07-Ex are approved for use in ambient temperatures of up to 60°C, depending on the type of lamp bulb used.**
- **Technical data, explosion protection:**
This luminaire meets the essential safety and health requirements by complying with the regulations for
 - Gas**
EN 60079-0: 2009 General Requirements
EN 60079-1: 2007 Flame-proof Enclosure 'd'

Lumistar luminaire USL 07-Ex with power supply cable

Lumistar luminaire USL 07-Ex with terminal box

- **Straightforward electrical connection via**
 - **Power supply cable (variant I only):**
Pressure-tight, resin-cast flared cable entry gland with power supply cable installed by manufacturer. Cable lengths: 2 m (standard), 5 m or 20 m. Replacement possible at any time by operating company.
 - **Terminal box (variant II only):** Any cable length possible.

Lumiglas

- **Very easy to install using special mountings, ensuring convenience of use:**

The luminaire is attached to the cover flange of the circular sight glass fitting or the visual flow indicator using the luminaire fixture, or secured to the grooved nut on screw-type sight glass fittings.

Lumistar luminaires USL 07-Ex fit the following sizes:

- a) Circular sight glass fitting acc. to DIN 28120: from DN 50
- b) Circular sight glass fitting acc. to DIN 28121: from DN 80
- c) Visual flow indicators: from DN 50
- d) Screw-type sight glass fittings in compliance with DIN 11851:
 - DN 100, DN 125 are attached using a separate flange adapter
 - sizes DN 150 and up are secured using the luminaire fixture

Application as combined sight and light glass mounted on a sight glass port to DIN 28120
